A man with dark hair and a beard, wearing a dark jacket, is seated at a desk in a modern office. He is looking at a laptop screen which displays a 3D mechanical model. His right hand is on the laptop keyboard, and his left hand is on a mouse. In the background, there is a large curved monitor displaying a similar 3D model, a pen holder with various pens, a water bottle, and a coffee cup. The office has large windows in the background, and a green horizontal bar is visible at the top left of the image.

Prepare your students to drive
digital transformation in the
factories of the future

“I want to train students to be able to propose new technologies and methods one step ahead when they enter the workforce and become engineers, and I believe that Fusion 360’s comprehensive capabilities, from design to manufacturing, will help foster such skills.”

Testsuya Uedera, Associate Professor of Mechanical Engineering, Kure Kosen

A photograph of a computer lab with several students sitting at desks, working on computers. The focus is on a young woman in the foreground with long brown hair, wearing a blue denim jacket, looking intently at her monitor. Other students are visible in the background, also working. The room has a modern feel with large windows and bright lighting.
